Ramblin' Red®	Red		6'-8'	3'-4'	Climbing

Midwest Groundcovers carefully selects the highest quality roses for our collection so that we may provide our customers with some of the best roses that the market has to offer. Winter hardy, disease resistant, fragrant, repeat bloom, variation of plant habit, and high market demand are characteristics that guide our decision making.

Drift® roses are a cross between full-size groundcover roses and miniature roses. From the former they kept toughness, disease resistance, and winter hardiness. From the miniatures, they inherited their well-managed size and repeat-blooming nature.

Easy Elegance® roses are just as their name describes: low maintenance, disease resistant, winter hardy roses with spectacular blooms all season long.

Flower Carpet® roses, the result of 35 years of breeding, are easy care groundcover roses with unprecedented disease resistance, prolific, and extended bloom period with the additional feature of drought tolerance.

The Knock Out® family of roses is one of our most popular rose lines. These easy to grow shrub roses are very disease resistant with a 5-6 week bloom cycle that continues until a hard frost.
